

# **The 4<sup>th</sup> International Conference on Lunar and Deep Space Exploration (LDSE)**

22-24 July, 2019

Zhuhai, China

The 4<sup>th</sup> International Conference on Lunar and Deep Space Exploration (LDSE) will be held from July 22-24, 2019 in Zhuhai, China. The conference will be jointly sponsored by China National Space Administration (CNSA) and Chinese Academy of Sciences (CAS), co-organized by the Lunar Exploration and Space Engineering Center of CNSA and the General Office of Lunar and Deep Space Exploration of CAS.

LDSE has been successfully held in 2013, 2015 and 2017, respectively. It aims to provide a platform for the agencies, scientists and technical experts in the field of lunar and deep space exploration to present the latest research results, develop new idea and network amongst the worldwide planetary sciences community. The main themes of the conference will focus on (1) the frontiers of lunar science and planetary sciences; (2) the technology of lunar and deep space exploration, and the new technology of payloads; and (3) the scientific vision of lunar and deep space exploration in future.

## **1. Conference schedule**

July 21	Start from 10:00am	Registration
July 22-24	All day	Conference

The conference will feature oral presentations (15 minutes including 5 minutes of discussion and questioning) and poster sessions. The parallel sessions will be arranged according to the conference topics. And the event will also provide an exhibition area for participants to exchange technologies, demonstrate achievements, discuss possible cooperation in order to further promote the applications of technologies.

## **2. Conference Location**

The conference location will be at Zhuhai, China. The specific location to be determined.

## **3. Conference Registration**

All participants are requested to please register from January 15 to July 10, 2019 via conference website. For more information about the conference, please visit <http://ldse2019.csp.escience.cn>.

## **4. Abstract Submission**

The scientists, researchers and technical experts are warmly welcome to submit abstract of your research achievements via online abstract submission from January 15 to June 7, 2019.

## 5. Conference work language

The work language of the international conference will be English.
