

ISSI-BJ Important Communication

As China and several other countries all over the world are currently facing a serious challenge, i.e. the outbreak of the novel coronavirus disease COVID-19, according to the requirements issued by the Chinese Academy of Sciences, all upcoming visits and activities to be held at ISSI-BJ in the first half of the current year have been temporarily suspended until further notice.

These are to be postponed to the third and fourth quarters of 2020 onward, while ISSI-BJ events scheduled in the second half of the year are not affected and are currently being organized.

Furthermore, amidst these difficult times, ISSI-BJ staff would like to express concern for you and your loved ones and to remind you of the importance of taking precautions against the further spread of the virus. While confident that science will efficiently tackle the problem, prevention still represents the best cure.

We hope that you are and your families are healthy and safe.

Sincerely,

ISSI-BJ Staff
