Europa Clipper Launch

Space agency/country: SpaceX
Mission: *Europa Clipper/Falcon Heavy*

On 15 October 2024, NASA's *Europa Clipper* spacecraft was launched on a *SpaceX Falcon Heavy* rocket. The spacecraft was launched from Launch Complex 39A (Kennedy Space Center) in Florida, USA. *Europa Clipper* is the first mission to focus on Jupiter's icy moon Europa, conducting research and studying whether it could support life.
